

# Instructions for Educreations App

- Open Educreations. This is the home screen.

- Tap **New Lesson** to create your first lesson. The features of this screen will be introduced separately.

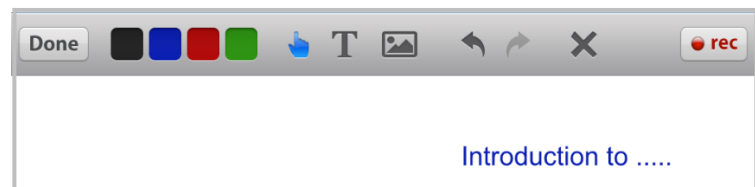

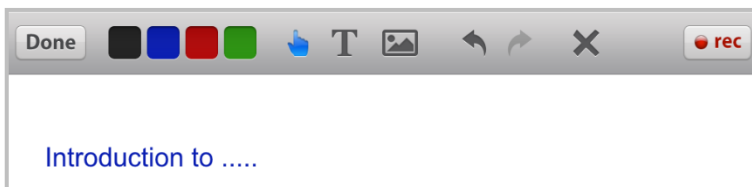

## Instructions for Educreations App

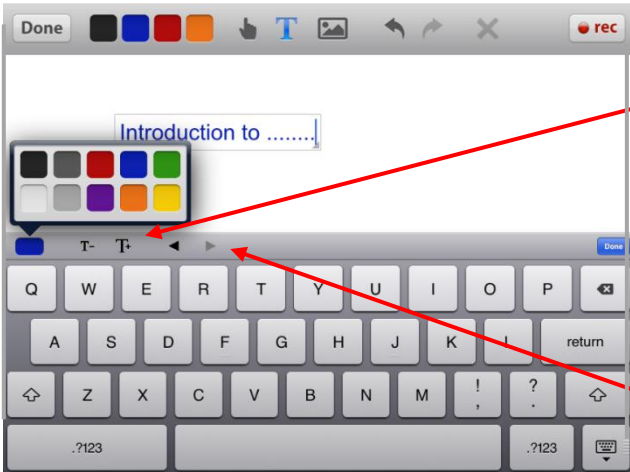

- The **Color Palette**. The color palette is used to draw pictures or write text. The small arrow in the corner indicates the current color. Use the arrow to drop down and choose other colors. You can reassign your favorite color by dropping down and holding your selection.

- The **Pointer**. The pointer is used to select items or text and move them to a new position. The pointer is blue when it is active.

- The **Text** tool. Tap the  icon and then tap anywhere on the screen. A keyboard will appear so you can key in text.

Change the font color here.

Change the font size here.

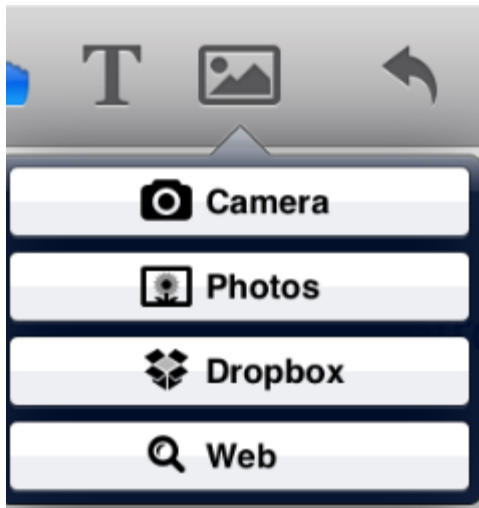

Use the arrows to move the cursor within the text box.

Tap the **Done** button to stop entering text and remove the keyboard.

## Instructions for Educreations App

---

- The **Picture** tool. Tapping the picture icon will allow you the following options:

Use the **camera** on the ipad to take a picture and have it automatically entered into your Educreations lesson.

Use existing **photos** stored on your ipad.

Get pictures from your **dropbox**.

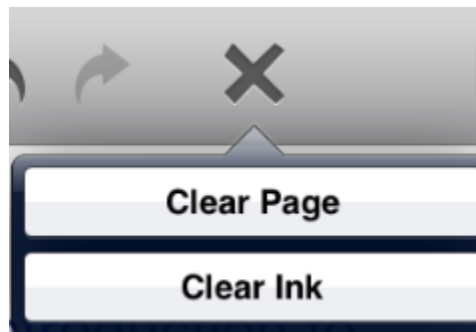

Get pictures from the **web**.

- Find a picture on the web.
- Hold your finger on the picture until the **Save Image** option appears.
- The picture will be saved in the camera roll of the ipad.

- Undo** and **Redo**.

- Clear Page** or **Clear Ink**.

**Clear Page** will remove everything from the page.

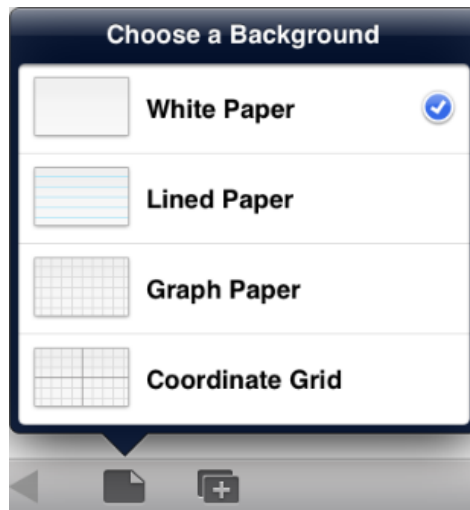

**Clear Ink** only removes the ink, not pictures or typed text.

- The **Record** button. Use this button when you are ready to start recording. It will record your voice and anything that is happening on the screen. A counter will show the length your recording. You can pause the recording to gather your thoughts or make changes on the screen. When you tap record again, it will start back where you paused.

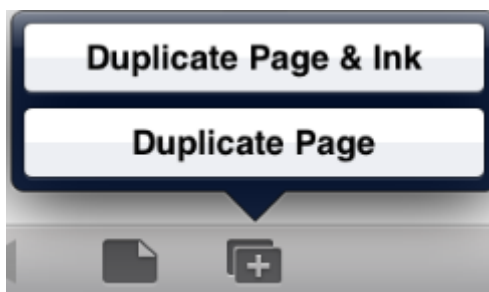

## Instructions for Educreations App

- **Choose a Background.** By default, the screen will have a white paper background, but you can choose to have a different paper background.

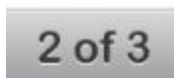

- **Duplicate** icon.

**Duplicate Page & Ink** will make a copy of the page keeping the pictures, typed text, and ink.

**Duplicate Page** will make a copy of the page keeping the pictures and typed text, but removing ink.

- **Page counter.** The first number is the page number. The second number is the total number of pages in your presentation.

This indicates you are on the 2nd page of a 3 page presentation.

- **Page navigation.** Use the arrows to move between the pages. The forward arrow will add a new page.

back

forward or new page

## Instructions for Educreations App

- **Saving** your Educreations presentation. After you have created your slides and recorded the presentation, tap the **Done** button in the upper left. You can choose **Save Lesson** or **Start Over**.

- After tapping **Save Lesson**, you will be prompted to enter a title and description. Then, tap **Next**.

A screenshot of the 'Choose a Lesson Title' screen in the Educreations app. The screen has a 'Cancel' button on the top left and a 'Next' button on the top right. It contains two text input fields: 'Title' with the text 'Butterfly' and 'Description (optional)' with the text 'My first Educreation.' A red arrow from the text 'Then, tap Next.' points to the 'Next' button.

- You need to decide if you want to keep the presentation **Private** which stores the presentation on the ipad (suggested for students) or **Public** which stores the presentation on the Educreations website so you can access it from your computer (Public instructions later).

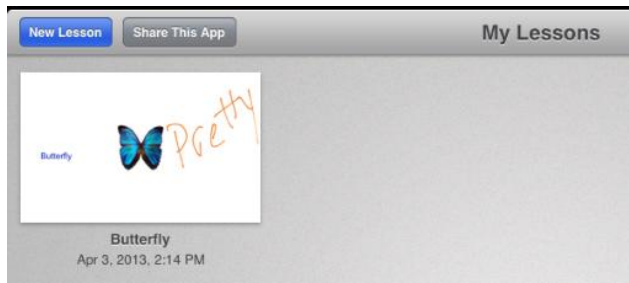

After tapping **Private**, tap **Next**.

- Use the arrows to select the **Subject Area** and **Subject**. Tap **Save**.

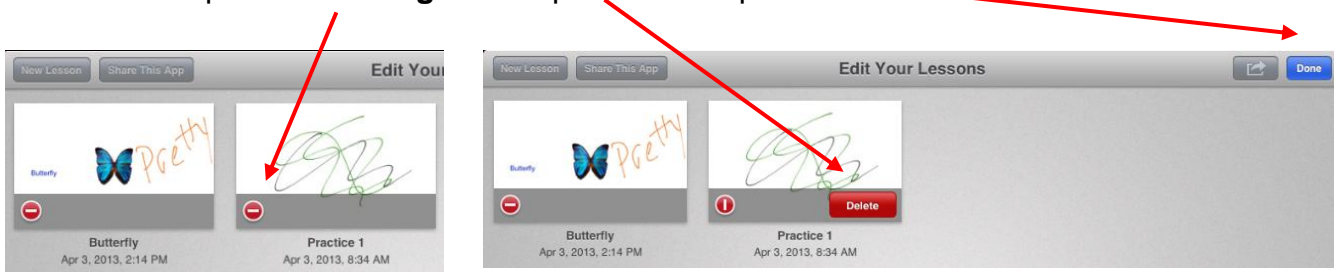

A screenshot of the 'Save Your Lesson' screen in the Educreations app. The screen has a 'Back' button on the top left and a 'Save' button on the top right. It contains two dropdown menus: 'Subject Area' with the selection 'Computer Technology' and 'Subject' with the selection 'All'. A red arrow from the text 'Tap Save.' points to the 'Save' button.

# Instructions for Educreations App

- Your presentation will be saved in **My Lessons**.

- To delete any lessons, tap the trash icon. The lessons will show a minus sign. Tap the **minus sign** and tap **Delete**. Tap **Done**.

- To do a **Public** save you must set up a free Teacher account. Then, you can save your videos on your computer. Tap **Done** when you are through creating. Choose **Save Lesson**. Enter the title and description. Tap **Next**.

- On the Audience screen, choose **Public** then **Next**.

- Choose the **Subject Area** and **Subject**, then tap **Save**. You will be prompted to create an Educreations account. Tap **Create Account**, select **Teacher**, fill in the information, and tap **Register**. You now have an Educreations account.

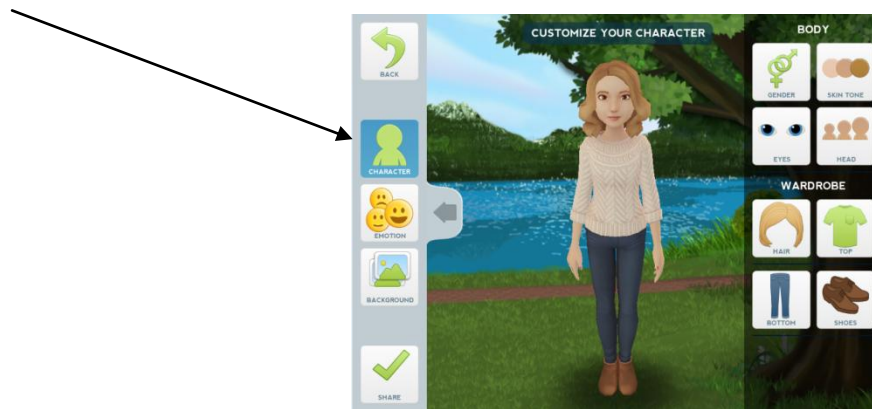

# Instructions for Tellagami App

- From the opening screen, tap **Create**.

- Tap the **Character** icon on the left so you can Customize Your Character.

- Choose the **Gender**. Female or Male.

- Tap **Skin Tone** to change the skin to the desired tone.

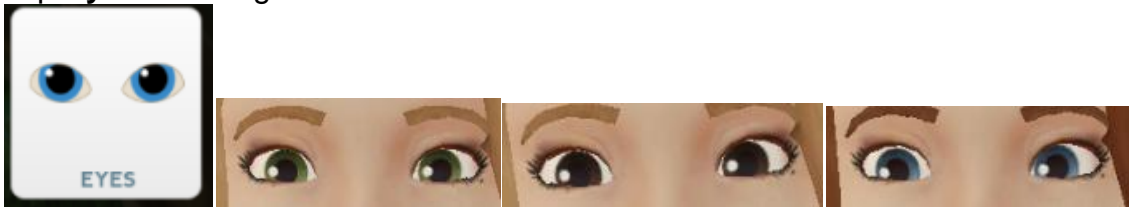

## Instructions for Tellagami App

---

- Tap **Eyes** to change the color.

- Tap **Head** to change the size of the character's head.

- Tap **Hair** to change the character's hair style and color.

- Tap **Top** to change the character's shirt style and color.

- Tap **Bottom** to change the character's pant style and color.

## Instructions for Tellagami App

- Tap **Shoes** to change the character's shoe style and color.

- Give your character some attitude with **Emotions**.

- Tap **Background** and there are 3 options.

## Instructions for Tellagami App

- **Take Photo** will use the iPad camera to automatically insert the picture into Tellagami.

My Office

- **From Library** will use an existing picture or a picture you get from the internet.

In a classroom

At the Pyramids of Giza

\*\*\* To get a picture from the internet, hold your finger on the picture until the option comes up to **Save Image**. Tap Save Image and the picture will be placed in **Photos** on the iPad.

- **Use Ours** will allow you to select some pre-made backgrounds.

## Instructions for Tellagami App

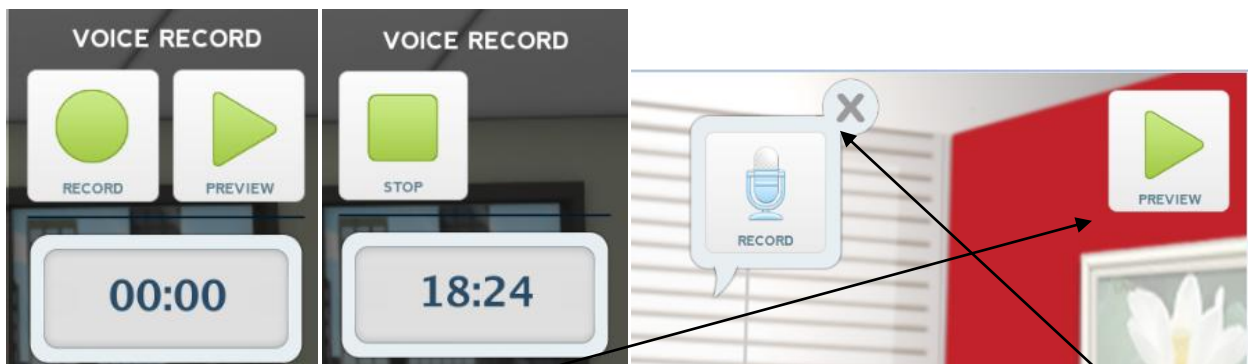

- You can **move** the character to a new position by holding and dragging. You can **resize** the character by pinching two fingers together to make it smaller or expanding two fingers to make it larger.

- There are 2 ways to record the narration. You can **Record** your own voice or you can **Type** in text and choose a voice.

- Record** your own voice. Speak loudly and clearly. Tap the **Record** button. A timer shows the length of your recording. You can record for 30 seconds. Tap **Stop** to stop recording.

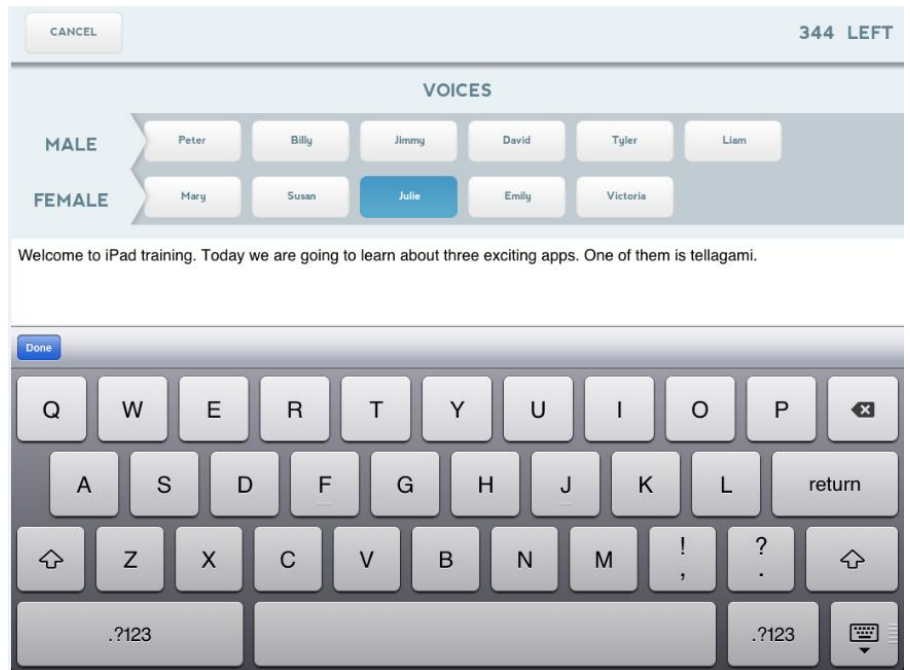

Tap **Preview** to listen to the recording. If you need to redo the recording, tap **Record** with the X in the corner and record again.

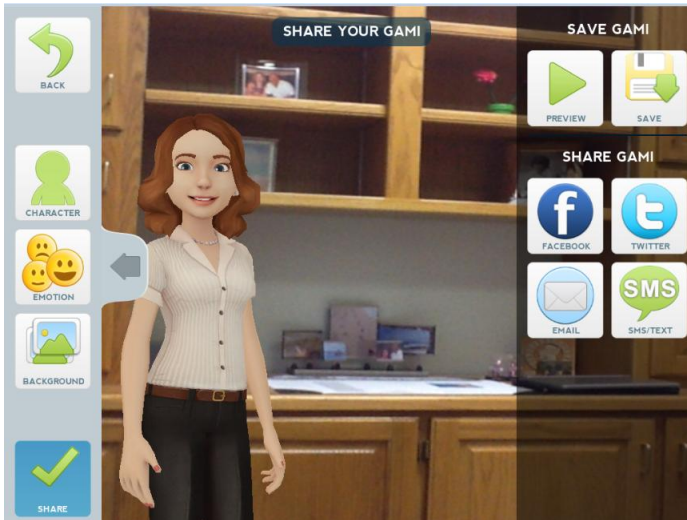

## Instructions for Tellagami App

- **Type** your text into the open area. \*\*\* NOTE: you must be on the internet for this option to work.
- You may enter a total of 450 characters. The amount of remaining characters appears in the upper right corner.
- Then, decide on which **Voice** you want to use.
- Tap **Done**.

- Saving your Gami. When you are satisfied with your presentation, tap the **Share** icon.

Tap **Save** and your Gami will be saved in Photos, Albums.

Depending on your computer settings, you may be able to transfer the Gami to your computer through the iPad cable.

I have not been successful at sending the Gami through email.
